

# Install

Install using [https://nixos.wiki/wiki/NixOS\\_Installation\\_Guide](https://nixos.wiki/wiki/NixOS_Installation_Guide) and uefi

install git

rebuild with experimental features nix-command and flake

```
nix.settings.experimental-features = ["nix-command" "flakes" ];
```

copy repo to /etc/nixos and rebuild

don't forget to add the correct hardware-configuration...
